

We're so confident about Pickbuster we guarantee it

Up to £2,500

If you have Pickbuster installed by an approved Installer*, then we will guarantee that you will not be burgled by Lock Bumping for up to 2 years. If you are burgled by Lock Bumping and your household insurance refuses to pay out then you can claim against UAP Limited for up to £2,500 of loss on a single occurrence. UAP would send out our own technical expert to look at the locks and re-apply Pickbuster for you. Simple conditions to apply** and we will pay out on the current value of the items stolen.

The Installer will give you a pre-numbered installation certificate and guarantee application. The installer will send a copy of this off to UAP to verify, check and log your installation before issuing you your personal guarantee certificate.

Installation costs are low, and we have set a Recommended Retail cost per lock of £9.99. A typical property with 3 locks eg front, back and garage, would be secured for under £30.

But I have Chains on the door, I don't need Pickbuster!

Wrong... Door bolts and chains work when you are inside the house, but when you go out your home is open to burglary.

So do something about it today. Have Pickbuster installed NOW

Burglary by Lock Bumping
Coming to a house near you...soon!

One lock – One minute – One burglary

Lock Bumping is now common in the UK as a means of burglary.

If your house is burgled by Lock Bumping it is unlikely that you will be able to claim on your insurance.

LOCK BUMPING IS KNOWN AS
CYLINDER BUMPING IN THE TRADE

I can be in your property in under a minute...easy

One lock –
One minute –
One burglary –

“Hi, I’m Justin... I’m just in when you’re just out.”

“Even though you locked the door, you think your house is so secure. Think again and you will see,

I’m in your house... I have a key!

I have an alarm you may shout... but in 30 seconds I’ll clear you out.”

Justin is not a poet, he’s an opportunist lock bumping operative... or burglar! And if he strikes then you are unlikely to be able to claim from your insurance.

Lock Bumping is simple. The burglar uses a modified key to get into your home, and these keys can be bought easily over the internet or made at home. Don’t believe me, type ‘Bump Key’ in to any search engine and see for yourself. Just 9 Bump keys cover 95% of all properties in the UK.

As the burglar uses a key, there is no damage and no sign of forced entry. You may think that you left the door unlocked and so would your insurance company. No sign of forced entry usually means no insurance claim being accepted.

Lock bumping is quick and silent with some locks being opened in under 5 seconds.

If you have a key that is shaped like these, such as uPVC doors, Patio doors, uPVC French doors, a garage door, Yale type locks then your property is at risk.

**If your key looks like these
... you are at risk ...**

*“I have an alarm you may shout...
but in 30 seconds I’ll clear you out.”*

PICKBUSTER
THE SHOCK ABSORBER FOR CYLINDERS

Pickbuster is a simple, economical and permanent solution to the problem of Lock Bumping. Pickbuster is a highly developed, synthetic oil that once inserted in to the lock barrel will act as a shock absorber, just like in a car, and this stops the lock being able to be bumped. Pickbuster is tested and approved by the Institute of Certified Locksmiths.

Pickbuster is available on-line at www.pickbuster.co.uk, or at good retail shops. Pickbuster can also be applied at your home very quickly and economically by installers. If you use an approved installer then we guarantee Pickbuster for 2 years....see details on the back of this leaflet.

Ask your installer about the Pickbuster DVD featuring Sean Wilson, best known as Martin Platt from Coronation Street, or watch it on line at: www.pickbuster.co.uk
